Jims photo club each year has a video show for December. I have not been able to attend meetings. I have stayed home due to my brain injury. But I still can take photos in my back yard. SO I did that all year and made my 1st slide show all by myself. Using Smart Show 3d by Nova Development, same company that made Photo Impact 13.

I then posted it on Facebook and you tube and folks seemed to like the slide show so I hope to do more in the future.

I thank the Lord for my brain cells to be working good enough to learn BOTH software's, the song I wrote using Band in the Box and the movie part Smart Show 3d.
