So Jackson and I were looking things over, cleaning files and having fun. The first time in some time.

We prayed then we practiced some songs then we worked on finishing up You are Part of His Master plan and still had time left. So we picked letters out to see what chords we would use. To see if we could make a song.

We just wanted to continue to praise the Lord. So Jackson was playing the chords trying to make sense of them all and get something that flowed and I heard. Lets all Praise the Lord. Both of us were happy that day October 13th and we only got Lets all Praise the Lord completed.

We read Genesis again and liked the idea of including creation and so we decided on lyric ideas.

Then in November we meant again and worked on the song, but then I had surgery and covid and Jackson was traveling. Then we got back together we finished out song to Praise the Lord.

The funny thing is that later on it was time for Central Christian to change and prepare for next exhibit, God's Handy Work and I was working on songs, trying to get my mind back working and learning chords again and I thought that this song would be a nice art piece in the show. So I spent Feb 7 and 8th working with Jackson to get chords updated and then Jim printed out on Tuesday the 8th and will frame up soon.

Look forward to seeing what God will do with the song He gave us.
